

## Allegany County Health Planning Coalition

### Social Connectedness Resource List

It is our intent to promote development of positive, non-abusive relationships for improved health. Services that promote positive parenting, anti-bullying, mentors, visitation of elderly, developmental assets, and Community Outreach Workers are desired. Please share the programs and services your organization offers to foster healthy relationships in our community. Do you offer programs to strengthen the connection among families, neighbors, youth, or the elderly? Please send the information by email to: [nforlifer@wmhs.com](mailto:nforlifer@wmhs.com) or fax it to 240-964-8415. The information will be added to a master list and posted to [www.alleganyhealthplanningcoalition.com](http://www.alleganyhealthplanningcoalition.com).
